

D200P1H1 LED ROUND 200

D200P1V1

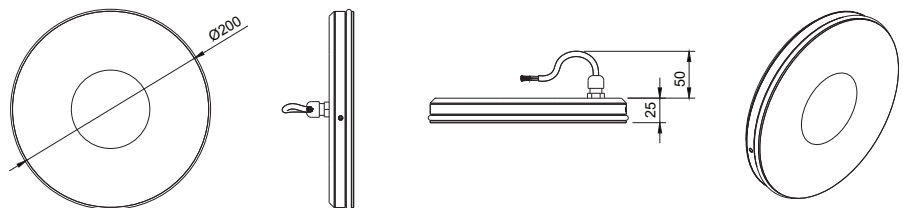

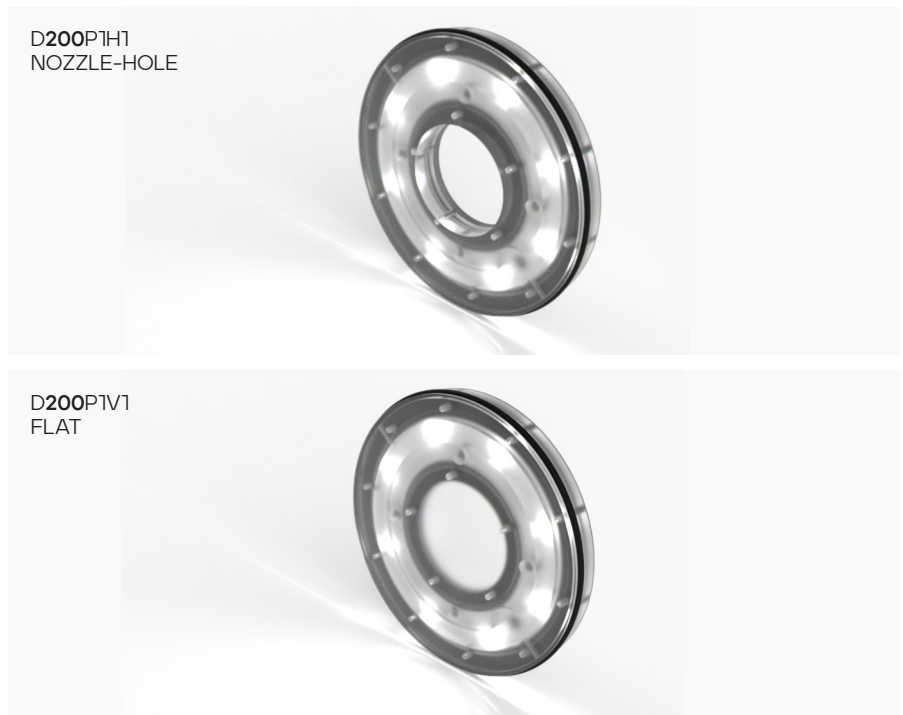

Fountain spotlight

High performance in flexible design: the lower part of the housing is made of stainless steel, the upper part is made of polycarbonate and is milled from solid. This allows the design to be driven over. Due to the matt finish, the headlamp has low glare. The absence of optical systems significantly increases the efficiency. Latest LED technology in RGBW provides seamless color changes.

Sophisticated design, durable, efficient, simply WEAD.

Specifications

- Installation opening: D = 200
- Installation depth: 25 mm plus cable entry
- Housing made of V4A stainless steel / polycarbonate
- Total power RGBW 40 W
- RGBW with dedicated white in 4500 K daylight white
- Illumination angle approx. 160°
- Frosted surface
- Passable by vehicles

Standard

- System voltage 30VDC
- Constant current 350mA
- RGBW: color change with dedicated daylight white in 4500K
- 15m connection cable

Customized

- Nozzle bore
- Cable length
- Matting

Accessories

- DMX Ctrl
- CC Box
